

Nature Hike-and-Seek Hunt

Find Something that
is over a thousand
years old

Find two things
that a squirrel
might save for
winter

Find Something that
a rabbit would eat

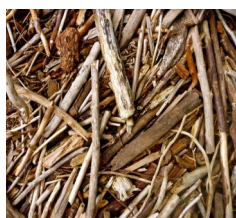

Find a leaf eaten by
an insect

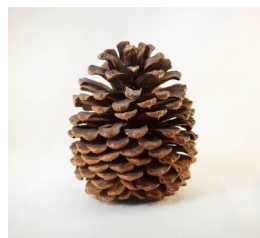

Find a petal with
pollen on it

Find a piece of bark
with a mark by an
animal

Find two things a
bird might use to
build a nest

Find something that
protects a seed

Find a flowering
weed

Find something that
grows into a plant

Find something the
length of your arm
that a deer might eat

Find something that
usually is found
underground

Family Trail Activity Guide

Pick out a Nature Name

Think of a plant or animal with the same first letter as your name

Ex. William Wolf , Sally Sunflower, Danielle Deer

Explore an archeological site

Take a photo of someone jumping in the air

Lift up a log or rock on the side of the trail. What do you find underneath?

Be sure to put the log and rocks back into place where you found them.

Take a group photo

If you post it, share it with us! [#fruitlandsmuseum](#) [#fruitlandsfamilyhike](#)

Always remember trail safety: Be on the lookout for poison ivy, use bug spray, and at the end of your hike, be sure to do a tick check.
