

# Scavenger Hunt For the Senses

For Creative Kids and Adventurous Adults

Work with friends or fly solo to collect examples of the ideas below. Take photographs with your phone or store what you find in your memory. Remember: there's no one answer!

**TIP:** Answers are all around you! Consider natural, human-made, and architectural elements for inspiration.

## TAKE IT FURTHER

Edit your photos and videos: apply filters, add colors and textures, alter the speed. Can you make your photos look completely different?

## EXPLORE MORE AT HOME

Try this scavenger hunt again at home. How does a change in location alter the experience?
